1. Ordinary Dividends and Short-Term Capital Gain.

2. Qualifying Income is the portion of Ordinary Dividends that qualifies for a reduced tax rate if the shareholder meets specific holding period requirements. Shareholders should consult their own tax advisor for details as to how this information may impact their 2021 tax returns.

3. Return of Capital.

4. Included in Total Ordinary Dividends - may be eligible for the 20% qualified business income deduction if the shareholder meets specific holding period requirements. If the requirements are met for a particular distribution payment, a shareholder may be able to qualify for the reduced rate. Shareholders should consult their own tax advisor for details as to how this information may impact their 2021 tax returns.

This chart is for informational purposes only and should not be construed as legal or tax advice. Each individual's situation may be different, and therefore you should contact your tax or legal advisor. In addition, since each shareholder's circumstances are different, please use the specific information on Form 1099-DIV (amended in the case of shareholders holding through certain brokers) that you receive to help prepare your tax return.
